

INTERNATIONAL SEMESTERS 2019-2020

ACADEMIC YEAR 2019-2020

(end of August - mid May)

Business Academy in Turku

Business Academy enables you a learning space where you are encouraged to try your own talents and experience in a safe environment. Learning in project-based teams ease interaction with local companies and organizations. By learning at Business Academy, you will get important project and teamwork skills with an entrepreneurial mindset. Students from the beginning set up a cooperative and start their business activities. In addition to the projects, theoretical knowledge is assimilated through training sessions and reading of materials (reading circles).

The sessions are held about twice a week. The purpose is to get deeper awareness of the issue to be learned by discussing it together. In addition, each company has its own coach that supports your professional development and if you wish, the ability to become an entrepreneur. Business Academy gives you the chance to fulfill yourself and test your boundaries. Here you can see an example of the [working week in BusinessAcademy](#). For grasping a better idea of this innovative concept and its core principles, take a look at [Innovation Pedagogy TUAS - Case Business Academy](#), visit [Business Academy website](#) and also learn about our [alumni testimonials](#).
