Autumn semester 2021 (end of August - mid December)

Faculty's Optional/ Additional Course suitable for all			
Project Hatchery			
PROJECT HATCHERY	Course code	ECTS credits	Prerequisites / quota of students / weekly schedule etc.
<p>Project hatchery course includes project working in practice and theory about project management. Each multidisciplinary group has their own real-life project, that group will do independently throughout the course. Each group prepares project plan, poster, and presentation. The aim of the project hatchery is to provide basic skills for the project working and to support succeeding in the more demanding project study units or modules following years and to support students active and responsible role as a learner not only in the individual level but also as part of a project team.</p> <p>Project hatchery-course includes 133 hours working. About 80 hours is project hatchery working and about 53 hours is project management and reading groups. Learning methods are project learning and face-to-face meetings. The course may also involve teleworking.</p>	N/A	5 ECTS	01.09.2021- 15.12.2021 Meetings every Wednesday (4h) 12-16 pm Limited intake 20-30 students
