

Greetings from TUAS Student Tutors!

Congratulations and a warm welcome to the Turku University of Applied Sciences! We are your student tutors in the International Business degree program and we are excited that you have chosen to study here in Turku. We will introduce the school, and of course the city, to you and help you in getting to know your new classmates, teachers, etc. We are looking forward to guiding and supporting you through your first year here.

Most of you have already met us in the entrance exam, and you will meet us first thing in the beginning of the orientation days in August. You will receive a lot of new information during the days, but most of all it will be fun and useful, and you will get to know your new classmates. Our goal is to make you feel comfortable in your new school, so that you will enjoy your studies here.

We would also like you to keep your schedule open for the orientation days because we will also organize some get-togethers after school hours. Be prepared for some outdoor activities (rain check!) as well. After all, we would like to know you!

We are looking forward on seeing you during orientation at the end of August.

You will recognize us from our big smiles, helpful attitudes and of course our yellow overalls.

Sincerely yours,

The tutors

P.S. You can contact us already during the summer if you have any questions. We have also created a Facebook group for you: PINBOS16. There you can find your classmates and us.
